

# Announcing a New Game...

## Super Belch Sisters!!

Beta Fighters, and The Steve Series before it, have both been postponed. We are switching platforms from Game Maker to Unity, as Game Maker Studio 2 doesn't live up to quality standards we anticipated. We are looking forward to bringing a brand new game to you made in Unity, a program we're just starting to learn. Let's talk about the game in particular.

### Gameplay

The core gameplay of Super Belch Sisters revolves around collecting fizzy powerups and using them to burp opponents offstage. When you lose a stock, you can use your special attack to get back in the game. Each character also has a special ability that aids them in battle. Character's core functionality are the same and only differ based on their special attack and ability.
